

BRIDGWATER

Keepers Urban Honey is sourced and produced locally in the South West of England by Black Bee Honey.

This is a year-round process: In the Spring and Summer, the bees collect nectar from wildflowers and fauna across Somerset. As the season progresses, the honey produced becomes darker with a bolder flavour. In the Autumn, the bees are then moved to the moors where there is an abundance of heather in bloom; this then gives the honey an incredible aromatic flavour with a unique texture.
